## Disney's Tarzan

Orphaned in the jungle, Tarzan is rescued by Kala, a female gorilla, who discovers the baby in a tree house high above the jungle floor. An immediate bond forms between the two when Kala is forced to save Tarzan from the leopard, Sabor, a longtime enemy of the gorilla family and the killer of the child's parents. Kala returns with Tarzan to her ape family. The other apes look at the baby with uncertainty, and Kerchak, the ape's leader, fears the baby will bring danger to his family. When Kala refuses to abandon the child to a certain death, Kerchak allows her to keep the baby, but refuses to be a father to this stranger.

Tarzan thrives in the jungle, quickly becoming friends with a tomboy ape named Terk, and a neurotic elephant named Tantor. As Tarzan watches all the creatures of the jungle, he learns their skills and uses what he learns. Even so, Tarzan knows he is different from the animals in his new family.

Determined to prove himself to Kerchak, Tarzan vows to become, "the best ape ever!" As Tarzan grows into adulthood, his strength and agility allow him to move through the jungle with ease. When Sabor attacks Kerchak, Tarzan kills the leopard, finally earning Kerchak's respect and acceptance. Just when it seems that he has finally fit into the gorilla family, gunshots announce the arrival of humans. With that one sound, Tarzan's world changes forever.

Curious about these new strangers, Tarzan must find out more about them. He is quickly introduced to Professor Porter, a noted scientific expert on gorillas, Professor Porter's daughter Jane, and Clayton, their opportunistic jungle guide. Unimagined adventures await Tarzan as his human acquaintances encounter the gorilla world he grew up in.

## Tarzan's Friends

### Terk

A feisty, wisecracking tomboy, Terk quickly adopts Tarzan as a little brother. Terk teaches Tarzan the ways of the jungle; she is always there to help her hairless friend, although she complains a little bit first.

### Tantor

An elephant bundle of nerves and neuroses, Tantor's size does nothing to waylay his numerous anxieties. However, when Tarzan is in trouble, Tantor will always trumpet-charge to his friend's rescue.

### Jane

A proper young Victorian woman, Jane eagerly embraces the excitement and danger of the jungle. Jane discovers she can teach Tarzan the ways of Man, while Tarzan happily guides Jane to the hidden wonders of his exotic world.

## Tarzan's Friends

### Professor Porter

As the world-leading expert on gorillas, Professor Porter is eager to observe them in the jungle. He is a good-natured man, full of enthusiasm, and easily distracted. He is always watchful when it comes to his daughter Jane.

### Kala

Tarzan's adoptive mother, Kala loves Tarzan unconditionally and teaches him that family is more a matter of heart than of blood.

### Kerchak

The respected patriarch of the gorilla family, Kerchak is fiercely devoted to the apes in his care. Convinced that Tarzan will bring danger to his family, Kerchak refuses to accept Tarzan. Kerchak acknowledges Tarzan's worthiness when Tarzan puts himself at risk to save his gorilla family.

## Tarzan's Enemies

### *Jungle Animals*

The jungle is alive with animals. But be careful, although some of the creatures are cute and fuzzy, they can still be hazardous to your health. Some animals are even downright mean and will throw harmful fruit at Tarzan.

### *Clayton*

An experienced hunter, Clayton guides Jane and Professor Porter through the jungle. His natural instinct is to shoot first and explore later. Although Clayton appears to be the ideal example of civilized man, Tarzan soon discovers who is the true savage.

### *Thugs*

When the humans arrive in the jungle, new dangers face Tarzan. Watch out for Clayton's thugs. They are out to hurt Tarzan and capture his gorilla family.

## Hazards

Certain plants and animals decrease Tarzan's strength so that he must find health to continue.

### *Animals*

While some animals are openly hostile to Tarzan, others will decrease Tarzan's strength by simply making contact. Jump to avoid them using the Button, or throw harmful fruit at them using the Button, or the Button.

### *Birds*

Birds drop coconuts on Tarzan. Jump by pressing the Button to see them coming or press on the Directional Button to duck and protect Tarzan. Then head for cover.

### *Exotic Plants*

Activate the plant by pressing the or Button. Bananas and fruit will fly out. Collect bonuses and boost your health. Be careful not to touch these plants.

## Health

Tarzan needs a lot of energy as he encounters his enemies. Watch the energy bar and be sure to let Tarzan collect the bananas that he finds. He must gather his strength before the next encounter. See *Hazards*.

### Banana Tree

Pound the base of the banana tree by pressing the  Button and the tree will drop bananas and other items that will help Tarzan.

## Tarzan's Moves

### Swinging

Using the Directional Buttons, press and hold the  or  to swing Left or Right. Press  on the Directional Button to climb up or  to move down. Tarzan will swing from the vine or rope. Press the  Button to get Tarzan to release his grip and swing to the next vine. This move is perfect for moving Tarzan safely across wide pits.

### Climbing

Move Tarzan to a cliff, tree, or vine. Press the  Button and the  Directional Button simultaneously. Tarzan will climb the obstacle to get where he is going, possibly gathering rewards along the way.

### Tree Surfing

Tarzan lands on a twisting branch and suddenly he is surfing past birds and monkeys. Press the Directional Button  to lay back on the branch and avoid getting Tarzan smacked by overhanging branches. Press the  Button to leap over low-clinging vines. Be prepared to swing wide of branches using the  and  Directional Buttons, and to collect tokens.

## Tarzan's Moves

### Ground Pound

Press the  Button to have Tarzan pound the jungle floor. This move can release health, power fruit and mangos from trees, provide access to hidden areas on the jungle floor, or break open boxes.

### Power Jump

The jungle offers many ways to help Tarzan jump to or over high obstacles. Have Tarzan leap, using the  Button, on springy plants and large animals, then use the Directional Buttons to move him where he needs to go.

## Tarzan's Weapons

### Knife

Find the knife, pick it up, and use the L1 Button to slash with it, and the R1 Button to thrust.

### Spear

Tarzan has a spear for his fight against Sabor. Use the  Button for high attack and press the  Button for low attack.

### Jane's Parasol

This item is used while tree surfing with Jane. Press the  Button to pop open the parasol while tree surfing and knock baboons off the tree.

### Power Fruit

Tarzan has three different colored fruits he can collect, each with increased power to help him with larger enemies. Press the L2 or R2 button several times to see the quantity of each color fruit Tarzan has available. Cycle to the color of fruit you wish to use.

## Tarzan's Weapons

### Yellow Fruit

### Purple Fruit

First level of increased power. The fruit has had its strongest power of the Yellow Fruit.

### Red Fruit

Second level of increased power. The fruit will immediately kill enemies.

### Blue Fruit

# TARZAN

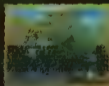

### Sketches

## Level Select

Upon completing a level you will be taken to the level select screen. The next level in Tarzan's journey will be highlighted. Just press the ● Button to proceed to the next level. If you wish to proceed to a previously completed level, use the ↑ and ↓ directional keys and press the ● Button. A total percentage of the game completed appears on the bottom of the screen. Complete the game at 100% and earn a special Disney's Tarzan movie reward.

## Levels

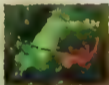

### Welcome to the Jungle

Orphaned, Tarzan must survive in the jungle. To do that, he has many discoveries to make. Terk helps Tarzan a lot. Grab a Terk token and Tarzan's tomboy friend is on the way to help him. Tarzan needs to be armed, so be on the lookout for a knife pickup.

### Going Ape

Tarzan knows some things now, having learned the ways of the jungle, and now he sets out to discover more. Terk is still there to help, but increasingly, Tarzan must use his knowledge of the jungle to survive and grow. This level introduces Tarzan to using vines to get around the jungle. Be sure to climb vines as well as leap from them. Surprises await you in the jungle canopy.

### The Elephant Hair Dare

Tarzan comes to play with Terk, but the other apes want nothing to do with Tarzan. Terk gives Tarzan "The Elephant Hair Dare." Get an elephant hair and you can be one of the gang. Tarzan heads deep into the jungle to find an elephant. What he finds instead are large animals, tangles of vines, and the need to eat many bananas to stay healthy, long enough to finish his quest.

## Levels

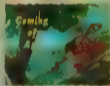

### Stampede

Tarzan grabs an elephant's tail to get the elusive hair, only to be spotted and mistaken for a piranha. Watch out, Tarzan! The herd of elephants is stampeding. There are lots of bananas and tokens to collect if Tarzan can keep from being trampled under the rampaging elephants,

bashed by trees, or running into wandering rhinos. Will he get home with the hair and be one of the gang?

### Coming of Age

Tarzan, the boy, becomes a man of the jungle. There are huge cliffs to climb, and a lot of tree surfing to do, so Tarzan must keep up his strength. Watch for rewards and tokens in strange places. Remember to ground pound the jungle floor beneath trees and on rotten branches that contain bonuses.

### Sabor Attacks

Tarzan rescues Kerchak from Sabor, then has to search the jungle for his enemy. Finding Sabor, Tarzan fights this ferocious leopard with a spear, to rid the jungle of this predator.

## Levels

### *The Baboon Chase*

Jane retrieves her sketches from the baby baboon by tricking him, and it angers the whole baboon troop. The chase is on.

### *Trashing the Camp*

Come on, let's have some fun! Terk and friends trash the camp, break into boxes using the ● Button, climb to reach great heights for their treasures, then trampoline across the camp while making a big mess. Some boards look springy so Terk has fun seeing what she can do with them.

### *Campsite Commotion*

Tarzan stumbles into camp as Clayton's thugs are breaking it down. While trying to find Jane somewhere in the camp, Tarzan must avoid the thugs.

### *Journey to the Treehouse*

Kala feels she must tell Tarzan about his parents. She will wait for Tarzan at the Treehouse. Tarzan makes his way over rotten logs, through crocodile and enemy infested jungle to reach it. It might be a good time for Tarzan to keep off the jungle floor and swing from the vines.

## Levels

### *Rockin' the Boat*

Around the deck, up onto the bow, across the rigging, in the stern and along the boat's hull, Tarzan searches for a way off the boat. Worse, he has to do it with the thugs themselves coming at him from all sides of the rolling deck, and avoiding sliding boxes that could crush him.

### *Tarzan to the Rescue*

Tarzan must get to the gorillas before Clayton takes them away. There is no better friend to get him there than Tantor, but Tarzan has to get past a rampaging rhino and Clayton's thugs, to rescue his gorilla family.

### *Conflict with Clayton*

Rescuing the apes foiled Clayton's plan and he's now more determined than ever to make Tarzan into a plaque for his trophy room. Take on Clayton, the great hunter, and find out who's the real master of the game.

## Completing Levels

Reach Jane's parasol to complete a level. The parasol opens and you are taken to the *Level Complete* screen.

- The number beside the Tarzan icon shows how many lives are left.
- The number beside the Token icon shows how many tokens have been collected. Tarzan will get additional lives for each 100 tokens collected.
- The letters that spell T-A-R-Z-A-N are at the top of the screen. The ones you have collected are highlighted. If you have collected them all, you can access a movie. (See the Options screen.)
- The highlighted portions of the sketch show how many of its parts you collected during the completion of the level. If you completed the sketch, you will play a bonus level before going on to the next story level.

When the count is completed, press the  Button to continue to the next level, or press the  Button to save the game to the Memory Card.

## Bonus Levels

### Stork Ride

Enjoy the ride and collect your tokens. Guide the stork using the  Button to avoid running into overhanging branches. Miss those trees in the stork's way using the Directional Buttons  .

### Jungle Cruise

Collect those tokens and watch out for whirlpools.

### Tree Surfing

Catch some branch and do a little surfing, jungle style.

### Terk and Tantor's Great Escape

Terk and Tantor are on the run from Kerchak. Maintain control and avoid obstacles by using the right and left directional buttons to steer Tantor.

### Jungle Jumpin'

Terk and Tarzan are jumping and flipping for a ton of bonuses.

### Completing Bonus Levels

Completing bonus levels is the same as completing levels except that you cannot save bonus levels. Collect all four pieces of the sketch and you will be able to play another bonus level. Any tokens you collected will be added to the number of lives left. Collect the Purple fruit to extend the time in the bonus levels.

## Tarzan's Jungle Hints

Look for highlight differences in jungle coloring and have Tarzan pound the ground. Bananas and tokens are hidden in strange places.

Watch for springboards of all kinds, jungle branches, loose boards, springy plants, the backs of large animals, and then power jump.

Watch the counter in the leaf on the lower right corner of the screen to know how many lives Tarzan has left.

On the "Rockin' the Boat" level, look for levers that open access to blocked off areas.

There are many paths on the Journey to the Treehouse, but some are more profitable in terms of bonuses than others. So search high and low and you will be sure to discover more than you bargained for.

Vines are not just for swinging. Several vines have bonus items hidden along the tops of the trees. Climb up to the tops of vines and discover Jungle Tokens and Health.

In the camp, trash some crates to find Jungle Tokens and other valuable items. You also will want to hang out on the teeter-totter for a second, as the result can be uplifting.
